Have you ever seen a python slither across the floor?

Imagine you are a python snake slithering under a chair, can you do it?

**Send me a video by ClassDojo to show me how you slither across the floor like a python!**

**Listen to the information about python snakes in PebbleGo:**

https://site.pebblego.com/modules/8/categories/8035/articles/8252

**Next, draw a python or use this sheet and write labels for its body parts:**

**Body:** strong for wrapping around and squeezing prey.
**Jaws:** open very wide to swallow prey
**Scales:** match the color of their surroundings to blend in.
**Skin:** covered in dry, hard scales

Then draw a picture of a domestic bird eating its food.

**Listen to the information about turtles in PebbleGo:**
